DETAILED ACTION

Election/Restrictions

This application is in condition for allowance except for the presence of claims 7-11 and 22-26, directed to an invention non-elected with traverse in the reply filed on 4/12/05. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

Applicant elected an embodiment containing one microphone therefore the claims directed toward a two microphone system must be cancelled. Applicant asserts that the recitation of "a microphone" does not preclude coverage of embodiments where there is another/second microphone, however, the dependent claims 7-11 and 22-26 which contain multiple microphones do not further limit the independent claims 14 and 15 since they recite "a carrier means enabling *the* microphone to be effectively and successively exposed to the sound pressure in each of the at least two points". Hence, the claims are not proper and do not read on figure 5 which was elected by the Applicant. The recitation of "the microphone" in claims 14 and 15 render the claim specific to an one microphone embodiment.

Allowable Subject Matter

Claims 2-6, 12, 14, 15, 18-21, and 27 are allowed.
